

NEVADA

Statewide Comprehensive Outdoor Recreation Plan

Carson City Report

Every five years, the Nevada Division of State Parks (NDSP) leads the development of the Statewide Comprehensive Outdoor Recreation Plan (SCORP), a research-based plan that evaluates the supply and demand of outdoor recreation resources and facilities across all jurisdictions. Specifically, the SCORP identifies outdoor recreation needs and opportunities for recreation improvements and development, provides the foundation for the distribution of Land and Water Conservation Fund (LWCF) monies for outdoor recreation and open space acquisition, and outlines the overall status of outdoor recreation in Nevada.

The 2022-2026 Nevada SCORP was developed over a 12-month period and represents a collaboration between NDSP and the Nevada Division of Outdoor Recreation (NDOR). The following pages provide valuable information that was gained through two public surveys. The data summary includes all 6,072 initial public survey responses and 720 responses to the Part 2: How and Where We Recreate survey. The report further segments the survey respondent data from the eleven frontier counties and provides highlights for the Nye County-specific data set.

This report is intended to assist land management agencies with applications for LWCF funds through the Open Project Selection Process (OPSP). We also hope that this profile will be utilized by legislators, county commissioners, planning commissions, city councils, travel and tourism offices, non-profits, and Parks and Recreation departments to assist with outdoor recreation planning, funding and advocacy.

Region-Specific Outdoor Recreation Maps

The purpose of the Part 2 survey was to gather more specific information about outdoor recreation activities over the past year, and where survey respondents participated in those activities. To determine location, we utilized the five geographic regions of Nevada as designated by Travel Nevada, the state's tourism marketing portal (travelnevada.com), and correlated responses by survey respondent's county of residence.

Carson City is located in Region 2
