FY 2018 NEVADA LAND AND WATER CONSERVATION FUND GRANT APPLICATION

Please read the <u>Grant Manual</u> thoroughly before proceeding with an application. The application and manual are available online at http://parks.nv.gov/grants/land-water-cons-fund/.

APPLICATIONS DUE: MAY 25, 2018, 12:00 PM

PLEASE SUBMIT VIA EMAIL TO: JKEILLOR@PARKS.NV.GOV

For assistance, please contact:

Janice Keillor Park and Recreation Program Manager Assistant State Liaison Officer (775) 684-2787 jkeillor@parks.nv.gov Art Krupicz Grants and Cultural Resource Specialist (775) 684-2775 rectrails@parks.nv.gov

	LAND CONTRO	L AND TENURE	
Please attach document	tation		
☐ Fee simple ownership	without encumbrances		
☐ Lease from a federal a	ngency (specify which) with	h a remaining term of 25 y	ears or more
☐ Easement (please prov	vide type)		
☐ Other (describe):			
	PROJEC	T COSTS	
Please do not submit mo	atch not directly related	to the project	
Grant request:		Percent of total:	
Match amount:		Percent of total:	
Total project cost:		Grant request and Match	h =100%
	PROJECT D	ESCRIPTION	
300 words maximum. Des	cribe exactly what work wil	l be completed.	

Applicants are encouraged to do each of the following, prior to continuing with this application:

- Review the *LWCF Grant Manual*. This document will provide detailed information about the entire LWCF grant program, from the initial planning of new projects to the long-term maintenance of past projects. The grant manual is available on the NDSP website or by contacting NDSP staff (contact information below).
- Review the *Nevada Comprehensive Outdoor Recreation Plan* (SCORP). Special attention should be paid to Part Three, which describes current outdoor recreation priorities. The SCORP is available on the NDSP website or by contacting staff.
- Review the current LWCF grant cycle announcement. In the months before a new grant cycle is to begin, NDSP will issue an announcement confirming available funds, deadlines, and any modifications to the program that might vary from the grant manual.

PROJECT NEED

2 criteria, maximum possible score of 7 points

Applicants must clearly explain how their project would fulfill an outdoor recreation need in Nevada. Specifically, applicants are prompted to describe the specific need, explain how their project provides a solution, and demonstrate how conditions would be improved, upon completion of the project. The specific criteria are:

Inclusion in Current Development Plans

Is the proposed project identified in a finalized, active community planning document? Such documents may include (but are not limited to): municipal master plans, open space plans, economic reports, or other studies commissioned by public entities.

Applicant will provide:

Narrative description of the project's role in current, accepted community development plans. Applicant may include supporting documents as deemed appropriate.

Scoring Rubric

- 4 Project is specifically identified as a priority within an existing plan
- 3 General project type is identified as a priority
- 2 Project not mentioned in a plan, but compelling justification is provided
- Project not mentioned, nor is project fully justified, given other community priorities

Describe the project's role in current, accepted community development plans. Attach

ipporting do	cuments as de	emed necess	sary.	 	

Impact on Recreational Opportunities

How will the proposed project expand the recreational options available to a community? Projects must strive to either bring new recreation options to an area or population or improve upon existing facilities such that new areas or populations can engage them. This includes American with Disabilities Act (ADA) retrofits, as well as any other elements that improve accessibility for underserved populations. <u>Underserved is defined as an area or population with inadequate services</u>, facilities, and/or a lack of access to recreation opportunities.

Applicant will provide:

Narrative description of a project's ability to enhance recreation options for an underserved area or population. Applicant may include supporting documents as deemed appropriate.

- Project introduces an entirely new opportunity to an area or population
- 2 Project improves an existing opportunity so that new areas or populations are accommodated
- 1 Project improves an existing opportunity, but does not expand its impact

Describe the population. A	project's abi Attach suppo	lity to enhan rting docum	ce recreation ents as deeme	options for a ed necessary.	n underserv	ed area or
•		G				

PROJECT QUALITY

5 criteria, maximum possible score of 16 points

While it is important to establish the need for a project, it is also necessary to determine the ability of any specific proposal to fulfill that need. This section assesses an applicant's particular strategy for accomplishing their stated goals. The specific criteria are:

Project Readiness (logistics)

Is the project "shovel-ready"? Projects need not be completely ready to go, but a clear schedule must be established, logistics must be addressed, and contingencies planned for. Note: this criterion also considers environmental (NEPA) and cultural (NHPA/Section 106) compliance.

Applicant will provide:

- Documentation which confirms project schedules, logistical strategies, and contingencies.
- For NEPA compliance, applicant must provide one of the following documents: Record of Decision, Finding of No Significant Impact, or Categorical Exclusion.
- For NHPA compliance, applicant must provide evidence of concurrence with the Finding of Effect, as provided by the Nevada State Historic Preservation Office (SHPO).
- For acquisition projects, applicants must provide an appraisal, Offer to Purchase, Statement of Just Compensation, and the property owner's response to the Statement for Just Compensation.

- 3 Project will begin immediately
- 2 Project will begin within six months
- 1 Project will begin within one year

A. Please attach documentation which confirms project schedules, logistical strategies, and contingency plans. A narrative description may also be included here:

- B. NEPA compliance: attach the applicable NEPA document (ROD, FONSI, CE)
- C. NHPA compliance: attach the SHPO letter of concurrence or (if SHPO concurrence has not been obtained), please answer the following questions:

Describe the extent of ground disturbance for this project. Specifically, describe the length, width, and
depth of the most significant instances of excavation/digging.
Describe both current and past ground disturbance in the proposed construction area.
Describe any cultural resources in the project area. This may include known historic buildings,
archaeology sites, and any other objects estimated to be over 50 years old.

Please attach the following three (3) maps:

- 1. General location map (showing project area within the state or county)
- 2. Topographic map (7.5 minute series quadrangle, 1:24,000 scale) with project boundary and map name. Topographic maps are preferred but aerial photos will suffice
- 3. Detailed site plan indicating specific project elements (e.g., structures, trail alignment)

For all maps, please include a key, north arrow, scale, and map name (if available). <u>Maps larger than 11x17 will not be accepted.</u>

Please attach the following photographs:

- At least two (2) overviews of the project area from different angles and distances
- Please include photos of known cultural resources, if present.
- D. For acquisition projects: attach the appraisal, Offer to Purchase, Statement of Just Compensation, and the property owner's response to the Statement for Just Compensation.

Partnerships

Does the applicant have commitments from partners who will move the project forward? This criterion assesses the level of cooperation between the applicant and those who have committed to functional roles in the project. Partnerships can be established for management, funding, volunteered labor, sponsorships, donations, underserved community engagement, and other aspects of a project. Letters of support must describe partnership and commitment to the project.

Applicant will provide:

Narrative description of how project partners will cooperate to achieve project goals, as well as evidence that the relationship(s) are formalized or otherwise confirmed (e.g., contract, memorandum of understanding/agreement, letter of commitment, or other signed documentation).

- 3 Applicant will complete project with two or more partners
- 2 Applicant will complete project with one partner
- 1 Applicant will complete project without partners

irm these relatio	nships.	 	rting documents	

Public Involvement

Was the public involved in the development of the project and its goals? Every project must give the public an opportunity to convey their perspectives. In particular, underserved communities must be identified and engaged. <u>Underserved is defined as an area or population with inadequate services</u>, facilities, and/or a lack of access to recreation opportunities. Public involvement may include (but is not limited to): workshops, public meetings, surveys, and letters of endorsement from community groups.

Applicant will provide:

Documentary evidence of both the scope and substance of public involvement (e.g., meeting notes, survey results, letters of endorsement). Applicant must specifically describe how they addressed:

- the engagement of underserved populations, and
- concerns raised by the public, in regards to the project.

Scoring Rubric

3 Clear evidence of public involvement and comprehensive attention to public concerns

Describe the nature and extent of public engagement with this project. Please detail specific

- 2 Public involvement was solicited, but concerns not addressed
- Public involvement not solicited or otherwise not appropriate for project scale or impact

e	ingagement with underserved populations and what is being done to mitigate any concerns onveyed by the public generally. Attach supporting documentation as deemed necessary.

Innovation and Best Practices

Does the project implement new and/or broadly accepted methods? Innovations need not be completely new to an industry or sector, but might be new to Nevada, a particular community, or to the applicant's organization. Creative solutions can be applied to any aspect of the project: planning, design, construction, funding, partnerships, underserved community engagement, etc. Best practices should be utilized in all aspects of the project.

Applicant will provide:

Narrative description of innovative solutions and/or the degree to which current best practice is being followed across all aspects of the project. Applicant may include supporting documents as deemed appropriate.

Scoring Rubric

- 3 Project utilizes innovative solutions and best practices in all phases
- 2 Project utilizes innovative solutions and best practices in some phases

Please describe both the implementation of best practices and their source (e.g., industry

1 Project does not utilize innovative solutions or best practices

Budget

Are cost estimates appropriate for the work proposed? In addition, is the projected match available and/or secured? Applicants often assume that lean budgets are preferred. However, budgets must be realistic and designed to avoid future delays or project amendments. Please ensure estimates are accurate for projected inflation of costs over the years the project is in progress. Matching funds must be secured by the time applications are submitted, so that they are a settled/confirmed element of the budget.

Applicant will provide:

Documentation of cost estimates and a narrative rationale for particular budgetary choices, as the applicant deems necessary. The status of matching funds must be documented with evidence that the arrangement is confirmed or otherwise secure (e.g., contract, memorandum of understanding/agreement, letter of commitment, or other signed documentation).

Scoring Rubric

- 4 Cost estimates are realistic and match is secured
- 3 Match is secured, but cost estimates are not realistic
- 2 Cost estimates are realistic, but match is not secured
- 1 Match is not secured, nor are cost estimates realistic

Please attach the project budget (Appendix A includes a sample budget form, but you may use another format). Matching funds must be accounted for. Attach supporting documentation as deemed necessary.

If	desired, a narrative description of the above documents may be added here:

ALIGNMENT WITH RECREATION GOALS

7 criteria, maximum possible score of 50 points

In order to receive LWCF funds, every state must develop a *State Comprehensive Outdoor Recreation Plan* (SCORP). This report requires updating every five years and provides a means to incorporate public input, current research data, and best practices for recreation planning. Most importantly, the SCORP must include outdoor recreation goals (priorities) that will serve as the basis for scoring LWCF grants, via the OPSP.

The degree to which a project aligns with SCORP priorities is the most important element of the scoring process (i.e., this section is worth more points than any other section).

Applicants will provide:

Narrative explanation of how the project fulfills the intent of each SCORP priority. Applicants must describe their engagement with underserved populations where applicable. A detailed explanation of these priorities may be found within the current SCORP. Nevada's current outdoor recreation priorities are:

Priority 1: Maintenance and/or rehabilitation of existing facilities

Priority 2: Ensure safety

Priority 3: Connectivity between trails, facilities, and other locations

Priority 4: Engage youth

Priority 5: Develop new facilities

Priority 6 (tie): Integrate with economic goals Priority 6 (tie): Conserve water and habitat

Scoring Rubric

Nevada's outdoor recreation priorities are weighted to reflect their importance as described in the SCORP.² Each narrative response will be rated along a scale, with zero representing "no alignment" with a particular priority and the highest possible score representing "significant or complete alignment" with a particular priority. Committee reviewers may rate a response anywhere within its weighted range, in order to assess the relative degree to which a project aligns with a priority.

	Significant	Moderate alignment	No
	alignment		alignment
Priority 1	10	from 9 down to 1 point	0
Priority 2	9	from 8 down to 1 point	0
Priority 3	8	from 7 down to 1 point	0
Priority 4	7	from 6 down to 1 point	0
Priority 5	6	from 5 down to 1 point	0
Priority 6 (tie)	5	from 4 down to 1 point	0
Priority 6 (tie)	5	from 4 down to 1 point	0

APPLICANT HISTORY

3 criteria, maximum possible score of 9 points

In addition to explaining the fundamental need for a project, justifying the particular plan for meeting that need, and detailing a project's fulfillment of SCORP priorities, applicants must be able to demonstrate a successful management record. The specific criteria are:

Grant Management History

What are the applicant's experiences with grant management? A general record of successful grant oversight is necessary. Previous experience with LWCF grants is preferred, but not required.

Applicant will provide:

Narrative description of grant management experience in order to establish an adequate sense of the applicant's capability. The description need not include every grant project managed by an entity. It should emphasize the grant management experiences of current personnel who will be involved with the project under consideration. Please note: this description must include not only successful instances of grant management, but also the challenges faced by the applicant (if any), and their response to project adversity.

Scoring Rubric

3 Applicant demonstrates consistent success in management of LWCF grants

Summarize the grant management experiences of both the organization and the personnel

- 2 Applicant has not managed LWCF grants, but demonstrates consistent success in management of other grant projects
- 1 Applicant demonstrates inconsistent management of grants (LWCF or otherwise)

responsible for this specific proj narrative.	ject. This may be done with attachments and/or a	

Project Management History

How was the applicant's performance (beyond grant management) as assessed by auditors or other institutional reviewers? Per CFR 200.205, applicants may be assessed upon their financial stability, quality of management systems, history of performance, reports and findings from audits, and their overall ability to implement any necessary requirements of an LWCF project.³

Applicant will provide:

Summaries of audits, institutional reviews, or other independent assessments related to organizational management and the overall institutional ability to consistently complete stated objectives. Applicant should include their record of engaging with underserved populations as well. A narrative explanation may be included with any documents, as the applicant deems appropriate.

- 3 Consistently positive audit findings for the last seven (7) years
- 2 Inconsistent audit findings for the last seven (7) years
- 1 Consistently problematic audit findings for the last seven (7) years

Summarize your organiz	vation's project manag	gement record as it is	s reflected in assessment
documents and reviews.	I nis may be done wit	n attachments and/or	r a narrative.

³ U.S. Government Publishing Office, Code of Federal Regulations, Title 2, Subtitle A, Chapter II, Part 200, Subpart C, 200.205: Federal awarding agency review of risk posed by applicants.

Maintenance Capacity

Does the applicant have the capability to perpetually maintain the facility once the project is complete? All property acquired or developed with LWCF assistance must be maintained perpetually in public outdoor recreation use (per the National Park Service). In general, past results are not a reliable indicator of future performance. Applicants must emphasize the planning strategies that will ensure perpetual use going forward.

Applicant will provide:

Evidence of their institutional ability to maintain projects over the long term, from project completion forward. Documentation may include, but is not limited to: operations & maintenance plans, programmatic agreements, memoranda of understanding/agreement, or charters.

- 3 Perpetual maintenance is very likely
- 2 Perpetual maintenance is somewhat likely
- 1 Perpetual maintenance is not likely

Describe your orgar with attachments an	nizational capacity to	maintain facilities	in perpetuity. This ma	ay be done
with attachments an	iu/oi a naitauve.			

PROJECT MAPS

Each application requires the following graphics:

- General location map (showing project area within the state or county)
- Topographic map (7.5 minute series quadrangle, 1:24,000 scale) with project boundary and map name. Topographic maps are preferred but aerial photos will suffice.
- Detailed site plan indicating specific project elements (e.g., structures, trail alignment)
- 6 (f) (3) boundary map

For all maps, please include a key, north arrow, scale, and map name (if available) Maps larger than 11x17 will not be accepted.

Please note: the general, topographic, and detail maps were required as evidence of cultural resource compliance in a previous section of this application. If those maps were already attached to this application, they need not be duplicated here.

6 (f) (3) PROJECT BOUNDARY MAP

The following elements must be included in each 6 (f) (3) boundary map:

Project Area

The LWCF boundary should generally include the entire park or recreation area being enhanced with grant funds. Exceptions will be made only in the case of larger parks, in which smaller, self-sustaining units may reasonably be understood to exist. Park areas that are incompatible with LWCF requirements should not be included in the boundary. The boundary must be a viable public outdoor recreation space that can be maintained without reliance upon adjoining or additional areas not identified in the project scope. In no case will the areas covered by the 6(f)(3) boundary be less than that acquired with L&WCF assistance.

Map Elements

The 6 (f) (3) boundary map will identify the following:

- Title of the project or project component.
- Date of map preparation and signature of the preparer and/or authorizing official.
- Area(s) under lease(s) and the term(s) remaining on that lease(s).
- All known outstanding rights and interests in the area held by others. Known easements, deed/lease restrictions, reversionary interests, etc. are to be included. Those outstanding rights and interests which, in the opinion of the applicant, would not adversely impact the utility and viability of the recreation area if exercised and not intended to be included under the conversion provisions of Section 6(f)(3) of the Act should be specifically identified
- Project area in sufficient detail so as to clearly identify the lands being afforded protection under Section 6(f)(3). The following methods of identification are acceptable:
 - o Deed references
 - o Adjoining ownership
 - o Adjoining easements of record
 - o Adjoining water bodies or other prominent natural landmarks
 - o Government survey with section (or quarter section) corners indicated OR

metes and bounds survey with boundary dimensions and directional bearings.

If the above methods are not suitable to the project area, measurements from permanent locators may be used. A formal survey is not required.

Review

Prior to final approval of a project, the NPS will review and accept the dated project boundary map's identification of the area to be protected by Section 6(f)(3) of the Act as well as any land or rights in land excluded from that protection.

Alteration to Project Area

Prior to the date of final billing for the project or project element, the State and the NPS may mutually agree to alter the project area to provide for the most satisfactory unit intended to be administered under the provisions of Section 6(f)(3), except that acquired parcels are afforded Section 6(f)(3) protection as L&WCF reimbursement is provided.

PROPOSAL DESCRIPTION AND ENVIRONMENTAL SCREENING FORM (PD/ESF)

The PD/ESF is a separate document required by the NPS to provide descriptive and environmental information regarding your project. It must be filled out unless NPS agrees that another NEPA document can be submitted. When filling out the form:

- Please type directly into the form
- Do not re-format the form other than spacing and deleting sections that are not applicable to your project.
- Please follow the directions carefully and contact NDSP grant staff as you need assistance.
- Refer to https://www.nps.gov/orgs/1812/upload/NPS_NEPAHandbook_Final.pdf for information on Categorical Exclusions.

APPENDIX A

Budget & Project Costs Estimate (SAMPLE)

(Note: Sample cost estimates do not necessarily reflect current construction costs.)

Project Name	e Development of Sandy Beach Park	
Constr	ruction Costs:	
	Clearing, grubbing, filling and topsoil	\$ 7,000
	Demolition and removal of obsolete bathhouse (condemned by County Health Department)	1,000
	Construction of a 50-car parking lot and a 20' x 200' park entrance road, including curbing, paving, signs and marking.	20,000
	Installation of a lighting system for the parking and restroom areas; power lines to be underground.	8,000
	Installation of an automatic irrigation system for 10 acres and delivery of water to model boat lagoon.	25,000
	Construction and installation of 15 concrete picnic tables and benches.	10,000
	Installation of 10 cast-iron barbecue stoves.	500
	Installation of 5 underground trash receptacles with pop-up lids and asphalt tile and cement conduit liners.	1,000
	500' of 5' wide cement walkway from parking lot to vista.	11,000
	Construction of a surfaced 8' wide, 1,300' long bicycle trail that meanders from park entrance to the park's southern extremity.	2,000
	Construction of an interpretive 20' x 50' ramada that will explain the natural history and mythology of the "Wounded Pig Blowhole." (Blowhole dioramas and displays are not covered in this request.)	30,000
	Installation of a 20' long bicycle rack.	500
	Construction of 2 outdoor shower pads with decorative lath screening.	2,000
	500' of sewer connection to new restroom facilities.	5,000
	500' of 4" domestic water main.	5,000

900' of 1" domestic water line to showers, draining fountains and restr	rooms. 6,000
100' of water main from the old irrigation well to the irrigation system	n. 600
Electrical lead-in line (underground) and transformer (does not includ any of the work in "installation of lights"). Storm drain from parking area to Haw Creek (200' long).	e 2,000 1,000
Model boat lagoon specially designed for enjoyment of radio-controlle model power boat enthusiasts.	ed 1,000
Architectural, Engineering, and Inspection Costs	
Master planning ("A Plan for Sandy Beach Park" prepared by Apex Environmental Planning, Inc.)	4,500
Engineering and preparation of plans, specifications and contracts done by city forces.	5,000
Engineering supervision of contractual construction.	2,000
Relocation Costs	
Cost of administering relocation (Part III, Section B, Item 8).	50
Relocation of tenant (Part III, Section B, Item 9).	<u>250</u>
Subtotal	\$157,600

Note: Show donations on the cost estimate. Donations need approval prior to project approval
