

Spring Mountain Ranch State Park

Commercial/Recreational Photography Information Sheet

Thank you for choosing Spring Mountain Ranch State Park for your photography. *If you are engaged in photography that may interfere or obstruct with the public's use and enjoyment of the park, entering a restricted or closed area for your photographic pursuits, or are engaged in photography for financial gain, you will need to get a photo permit.* Like all recreational activities in the park, there are some guidelines and restrictions photographers need to follow while taking photographs:

RECREATIONAL PHOTOGRAPHY: Per State Park Policy #00-4, we have designated the picnic area lawn as designated space for artists and recreational staged photo shoots.

We understand that many photographers use the park for recreational purposes, even if they are professional photographers taking photos for artistic or personal use. Like other recreational pursuits within the park, we need to regulate photography so as to preserve the park's historical and scenic resources, as well as to protect the public's health and safety. For that reason, we require that recreational photographers pay all appropriate park fees, not trespass onto closed or restricted areas (such as the ranch house lawn or historical area), not block trails, roadways, or walkways, not climb trees or disturb park resources, or otherwise interfere with the normal use and enjoyment of the park by other visitors.

COMMERCIAL PHOTOGRAPHY: If you are taking photos for commercial purposes as defined by NAC 407.0071, you **must** obtain a photography permit from the park. You will also need to provide proof of general liability insurance and endorse the State of Nevada as an additional insured on a separate endorsement per State of Nevada Risk Management. Insurance coverage cannot be waived under any circumstances due to current state law. To obtain a State Park Photo Permit, please read and fill out a photo application available on the Nevada State Parks website:

Photo permits are also required for use of closed areas, before or after normal park hours, staged photos along park roads or trails that may obstruct visitor traffic, or any photography that interferes with the public's normal use and enjoyment of the park. This applies to recreational photography as well.
